Add or Expand use of TennIIS for Vaccine Reporting and Other Features

Presenter:
Kelly Moore, MD, MPH, Director
Tennessee Immunization Program

Learning Objectives

1. Explain the functionality and benefits of TennIIS
2. Identify ways your practice can utilize TennIIS to improve vaccination coverage rates

What is TennIIS

Immunization Certificate Validation Tool

Prints validated Official Immunization Certificates for children

- Compares child's record in TennIIS to TN school requirements
- If vaccines complete, **does not** require healthcare provider signature

Can be used for enrollment in:

- Childcare and pre-school/pre-K
- Kindergarten
- Enrolling in a TN school for the first time in any other grade 1-12
- 7th grade (current students requiring Tdap booster documentation)

TN Department of Health

TennIIS Forecaster Tool

- Ability to print upcoming vaccinations for patients
  - Could be used to include in chart or give to patient
- Avoid missed opportunities
- Use for scheduling future appointments

Vaccination Forecast

The forecast automatically switches to the catch-up schedule when a patient is behind schedule.

Vaccine Family	Forecasted Dose	Recommended Date	Minimum Valid Date	Overdue Date	Status
